

# FURRY FRIENDLY AT FIFFICATS

**THE Fifficats boarding kennels and cattery believes that every dog and cat has its own personality and as such they focus on giving their furry guests personal attention.**

Stefanie Schmidt-Kaehler, lifelong animal lover and owner of 'Fifficats' in Versmold, understands the concerns of British soldiers and their families very well.

Stefanie says: "We already have a lot of BFG customers who told us about the close-down of the military boarding kennels in Sennelager."

"Of course pet owners want what's best for their furry friends and are now afraid of leaving their four-legged family member in bare-bones places with chain-link kennels."

**COSY**

However Fifficats is a family-owned, small and cosy boarding facility situated in the catchment area of Osnabrück, Gütersloh and Bielefeld.

It offers dog boarding, cat care and even houses guinea pigs, rabbits or turtles.

Stefanie and her husband, Sebastian, have five dogs and a cat of their own. They truly love their four-legged clientele and despise 'factory style boarding.'

**EXCELLENT**

Fifficats is located on an old farmstead that offers excellent conditions for pet care.

There are 12 dormitories and suites to house up to 15 guest felines and 12 canines in a section of the owners' residential house.

The 30,000 square foot property provides plenty of room to run and play.

Dogs spend most of the time outside and are tucked safely inside their rooms at night.

**TOYS**

The cat rooms provide privacy and protection and

are furnished with cat-walks, toys and cat furniture for their entertainment.

"Personal attention to our furry guests is incorporated into everything we do," says Stefanie. "With cats and dogs the daily interaction is what's most important."

"All our guests go through a temperament evaluation and we

consider every dog or cat as an individual personality that has to be respected."

Other services on offer include pet taxi transportation, daycare,

dog training, and emergency vet care.

Stefanie's passionate commitment to her furry guests means pet owners can enjoy guilt-free trips while their four-legged loved

ones enjoy a vacation of their own - belly scratches included.

● Fifficats is located at Laerstr. 55 in Versmold. Further information can be found on the website [www.fifficats.de/english](http://www.fifficats.de/english).
